

HA EUN BAE

FASHION DESIGNER AND

VISUAL ARTIST

e. haeunbaedesigns@gmail.com

c. 076 630 5617

w. haeunbaedesigns.com (online portfolio)

I am a South Korean-born designer and visual artist who has grown up in the South African landscape. I have been focusing on the fashion industry. I obtained a BA: Fashion Design (CUM LAUDE), at Fedisa, Cape Town in 2018.

For almost four year, I have been working as a fashion designer on different categories at Sissy Boy, Blue Jean Traders (Pty) Ltd. I have had fast growth within this company, having started as a Trainee, Intern, to Junior Designer and presently in the role of Designer.

I am highly motivated and passionate, appreciating and creatively experimenting with different ideas and solutions to create interesting work. With a skillset that is all rounded for designing garments as well as creating art, I believe that these bring value to a company's creative vision and direction, trend forecasting and unique product development.

Whilst my strengths lie in 'envisioning' then 'bringing to life', I am willing to learn and improve on the administering and stewarding of these. This would be through in-depth training to improve business skills and project management, as well as further learning for design skills in both traditional and digital media.
